OUR SERVICES

At 101 heavy machine rentals, we offer comprehensive transportation and heavy machinery equipment rental services tailored to meet the needs of construction, infrastructure, and mining projects, our services include.

1) Excavator Rental

We offer heavy-duty excavators like the Komatsu pc-400, Hitachi, zoom line, Caterpillar ideal for digging, material handling, and earth-moving project, this tracked excavator, equipped with a powerful hydraulic arm, is designed to perform in demanding construction and mining environments, ensuring reliable and robust operations.

2) Shovel

It is large electric or diesel-powered machine used in the open-pit mining process to remove and load overburden of coal.

3) Large dumper truck rental

At 101 Heavy machine rental we provide heavy duty large dump trucks for handling and transporting bulk materials, such as soil, sand, and gravel, across constructions and mining sites, these trucks are built to endure harsh environments and offer high-capacity payloads, ensuring efficient and cost-effective material transportation for large-scale projects.

4) Dump truck

A dump truck, known also as a dumping truck, dump trailer, dumper trailer, dump lorry or dumper lorry or a dumper for short, is used for transporting materials (such as dirt, gravel, or demolition waste) for construction as well as coal.

5) Roller

At 101 Heavy machine rental we provide heavy duty large dump trucks for handling and transporting bulk materials, such as soil, sand, and gravel, across constructions and mining sites, these trucks are built to endure harsh environments and offer high-capacity payloads, ensuring efficient and cost-effective material transportation for large-scale projects.

6) pick ups

Dump trucks are highly specialized commercial vehicles used for transferring various materials.

5) Heavy wheel loader excavator

101 for heavy machinery rental and transport offers heavy wheel loader excavators, perfect for loading, lifting, and transporting heavy materials such as gravel, sand, and debris. These machines are equipped with large buckets and robust wheels for optimal performance in rugged terrains, making them essential for quarrying, construction, and earth-moving tasks.

6) waste management transportation.

Providing transportation of waste from client's sites to waste management facilities (landfills), GPS fitted vehicles as per UAE CWM laws: tipper trucks, tankers and flatbeds, specializing in the following types of waste transportation: construction waste, demolition waste, municipal solid waste, industrial waste, sewerage waste, liquid waste, sludge etc.
